

Made Tough Since 1936

BRICK BOLSTER - 115MM

CONTINUAL
COMFORT

CHROME
VANADIUM STEEL

FEATURES

-  Forged from one piece of tough high tensile Chromium and vanadium 60 steel
-  A hardened 60° cutting edge double side blade creates a cleaner cut
-  The bolster doesn't damage bricks and can withstand the toughness of daily use on construction sites.
-  The brick bolster blade is 115mm ideal for cutting a standard 230mm brick in half, as its width matches the exact midpoint of the brick, ensuring an accurate and clean division.
-  An industrial-quality brick bolster designed for durability and lifetime use
